THE ST. JOE COMPANY
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, unless otherwise stated)
(Unaudited)

1. Nature of Operations

The St. Joe Company together with its consolidated subsidiaries (“St. Joe” or the “Company”) is a Florida real estate development, asset management and operating company with real estate assets and operations currently concentrated primarily between Tallahassee and Destin, Florida.

The Company conducts primarily all of its business in the following five reportable operating segments: 1) residential real estate, 2) commercial real estate, 3) resorts and leisure, 4) leasing operations and 5) forestry.

2. Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The accompanying unaudited interim condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) for reporting on Form 10-Q. Accordingly, certain information and footnotes required by United States generally accepted accounting principles (“GAAP”) for complete financial statements are not included herein. The unaudited interim condensed consolidated financial statements include the accounts of the Company and all of its majority-owned and controlled subsidiaries and variable interest entities where the Company is the primary beneficiary. Investments in joint ventures and limited partnerships in which the Company does not have a controlling interest are accounted for by the equity method. All significant intercompany transactions and balances have been eliminated in consolidation. The December 31, 2016 balance sheet amounts have been derived from the Company’s December 31, 2016 audited consolidated financial statements. Operating results for the nine months ended September 30, 2017 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2017.

A variable interest entity (“VIE”) is an entity in which a controlling financial interest may be achieved through arrangements that do not involve voting interests. A VIE is required to be consolidated by its primary beneficiary, which is the entity that possesses the power to direct the activities of the VIE that most significantly impact the VIEs economic performance and has the obligation to absorb losses or the right to receive benefits from the VIE that are significant to the entity. The Company consolidates VIEs when it is the primary beneficiary of the VIE, including real estate joint ventures determined to be VIEs (see Note 8. *Real Estate Joint Ventures*).

The interim condensed consolidated financial statements reflect all normal recurring adjustments that, in the opinion of management, are necessary for fair presentation of the information contained herein. The interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016. The Company adheres to the same accounting policies in preparation of its unaudited interim condensed consolidated financial statements as the Company’s December 31, 2016 annual financial statements. As required under GAAP, interim accounting for certain expenses, including income taxes, are based on full year assumptions. For interim financial reporting purposes, income taxes are recorded based upon estimated annual income tax rates.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. On an ongoing basis, the Company evaluates its estimates and assumptions including investments in real estate, real estate impairment assessments, investments, other-than-temporary investment impairment assessments, retained interest investments, accruals and deferred income taxes. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, bank demand accounts, money market instruments and short term commercial paper having original maturities, at acquisition date, of ninety days or less.

Investments

Investments and restricted investments consist of available-for-sale securities recorded at fair value, which is established through external pricing services that use quoted market prices and pricing data from recently executed market transactions. Unrealized gains and temporary losses on investments, net of tax, are recorded in other comprehensive (loss) income. Realized gains and losses on investments are determined using the specific identification method. The amortized cost of debt securities are adjusted for amortization of premiums and accretion of discounts to maturity computed under the effective interest method. Such amortization and accretion is included in investment income, net.

The Company evaluates investments classified as available-for-sale with an unrealized loss to determine if they are other-than-temporarily impaired. This evaluation is based on various factors, including the financial condition, business prospects, industry and creditworthiness of the issuer, severity and length of time the securities were in a loss position, the Company's ability and intent to hold investments until the unrealized loss is recovered or until maturity and the amount of the unrealized loss. If a decline in fair value is considered other-than-temporary, the decline is then bifurcated into its credit and non-credit related components. The amount of the credit-related component is recognized in earnings, and the amount of the non-credit related component is recognized in other comprehensive (loss) income, unless the Company intends to sell the security or it is more likely than not that the Company will be required to sell the security prior to its anticipated recovery.

Restricted Investments

The Company's restricted investments are related to the Company's deferred compensation plan. As part of the Pension Plan termination in 2014, the Company directed the Pension Plan to transfer the Pension Plan's surplus assets into a suspense account in the Company's 401(k) Plan. The Company has retained the risks and rewards of ownership of these assets; therefore, the assets held in the suspense account are included in the Company's condensed consolidated balance sheets until they are allocated to current and future 401(k) plan participants for up to the next four years. See Note 14. *Employee Benefit Plan*.

Fair Value Measurements

Fair value is an exit price, representing the amount that would be received by selling an asset or paying to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability. A three-tier fair value hierarchy is established as a basis for considering such assumptions and for inputs used in the valuation methodologies in measuring fair value:

Level 1. Quoted prices in active markets for identical assets or liabilities;

Level 2. Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3. Unobservable inputs in which there is little or no market data, such as internally-developed valuation models which require the reporting entity to develop its own assumptions.

Long-Lived Assets

Long-lived assets include the Company's investments in operating and development property and property and equipment. The Company reviews its long-lived assets for impairment quarterly to determine whether events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. As part of the Company's review for impairment of its long-lived assets, the Company reviews the long-lived asset's carrying value, current period actual financial results as compared to prior period and forecast contained in the Company's business plan and any other events or changes in circumstances to identify whether an indicator of potential impairment may exist. Some of the events or changes in circumstances that are considered by the Company as indicators of potential impairment include:

- a prolonged decrease in the fair value or demand for the Company's properties;
- a change in the expected use or development plans for the Company's properties;
- a material change in strategy that would affect the fair value of the Company's properties;
- continuing operating or cash flow loss for an operating property;
- an accumulation of costs in excess of the projected costs for a development property; and
- any other adverse change that may affect the fair value of the property.

The Company uses varying methods to determine if an impairment exists, such as (i) considering indicators of potential impairment, (ii) analyzing expected future cash flows and comparing the expected future undiscounted cash flows of the property to its carrying value or (iii) determining market resale values.

During the three and nine months ended September 30, 2017, the Company recorded an impairment charge of \$0.1 million included in the cost of real estate revenue, related to a residential property. During the three and nine months ended September 30, 2016, the Company recorded an impairment charge of \$0.4 million, included in the cost of real estate revenue, related to a commerce park.

Comprehensive Income

The Company's comprehensive income includes unrealized gains and temporary losses on available-for-sale securities and restricted investments.

Income Taxes

The Company's provision for income taxes includes the current tax owed on the current period earnings, as well as a deferred provision which reflects the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective income tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Changes in existing tax laws and rates, their related interpretations, as well as the uncertainty generated by the prospect of tax legislation in the future may affect the amounts of deferred tax liabilities or the realizability of deferred tax assets.

For tax positions the Company has taken or expects to take in a tax return, the Company applies a more likely than not assessment (i.e., there is a greater than 50 percent chance) about whether the tax position will be sustained upon examination by the appropriate tax authority with full knowledge of all relevant information. Amounts recorded for uncertain tax positions are periodically assessed, including the evaluation of new facts and circumstances, to ensure sustainability of the position. The Company records interest related to unrecognized tax benefits, if any, in interest expense and penalties in other income, net.

Concentration of Risks and Uncertainties

The Company's real estate investments are concentrated in Northwest Florida in a number of specific development projects. Uncertain economic or other conditions could have an adverse impact on the Company's real estate values and could cause the Company to sell assets at depressed values in order to pay ongoing obligations.

Financial instruments that potentially subject the Company to a concentration of credit risk consist of cash, cash equivalents, investments, other receivables, investments held by special purpose entity or entities (“SPE”) and investments in retained interests. The Company deposits and invests cash with regional financial institutions and as of September 30, 2017 these balances exceed the amount of F.D.I.C. insurance provided on such deposits. In addition, as of September 30, 2017, the Company had \$10.0 million invested in U.S. Treasury securities, \$101.5 million invested in eight issuers of corporate debt securities that are non-investment grade and \$33.7 million invested in four issuers of preferred stock that are non-investment grade. In addition, as of September 30, 2017, the Company had investments of \$141.6 million in short term commercial paper from nine issuers.

Earnings Per Share

Basic and diluted earnings per share is calculated by dividing net income by the average number of common shares outstanding for the period. For the three and nine months ended September 30, 2017 and 2016, basic and diluted average shares outstanding were the same and there were no outstanding common stock equivalents as of September 30, 2017 or December 31, 2016. Non-vested restricted stock is included in outstanding shares at the time of grant.

Revenue and Revenue Recognition

Revenue consists primarily of real estate sales, resorts and leisure operations, leasing operations, and timber sales. Taxes collected from customers and remitted to governmental authorities (e.g. sales tax) are excluded from revenue and costs and expenses.

Real Estate Revenue

Revenue from real estate sales, including sales of homesites, commercial properties and rural or timberland, is recognized when a sale is closed and title transfers to the buyer, the buyer’s initial investment is adequate, any receivables are probable of collection, the usual risks and rewards of ownership have been transferred to the buyer and the Company does not have significant continuing involvement with the real estate sold.

The buyer’s minimum initial investment requirement is typically the receipt of cash for approximately twenty to twenty-five percent of the sales value depending on the type and use of the property purchased. If the minimum initial investment requirement is not met, revenue may be deferred depending on the circumstances.

As part of the purchase price consideration for a homesite from sales to homebuilders, the Company may receive a percentage of the sale price of the completed home if the home price or gross profit of the home exceeds a negotiated threshold. These lot residuals are recognized as revenue when consideration is received by the Company in periods subsequent to the initial recognition of revenue for the sale of the homesite.

Resorts and Leisure Revenue

Resorts and leisure revenue includes service and rental fees associated with the WaterColor Inn and the Company’s vacation rental programs in WaterColor, WaterSound Beach and surrounding communities. In addition, other resorts and leisure revenue includes club membership sales, membership reservations, daily play at golf courses, merchandise sales, food and beverage sales, marina boat slip rentals, fuel sales, and management services of The Pearl Hotel. The revenue is generally recognized as services are provided. Vacation rental revenue includes the entire rental fee collected from the customer, including the homeowner’s portion. A percentage of the fee is remitted to the homeowner and presented in cost of resorts and leisure revenue. The Company is the principal in its vacation rental business and has determined that it is the primary obligor to the guest, as it has sole discretion in establishing prices and provides the majority of the services to the guest. Club membership revenue is recognized when billed to the member and the non-refundable initiation fee is deferred and recognized ratably over the estimated membership period. Revenue generated from the Company’s management services of The Pearl Hotel includes a management fee, fifty percent of certain resort fees and a percentage of The Pearl Hotel’s gross operating profit.

Leasing Revenue

Leasing revenue consists of long term rental revenue from retail, office and commercial operations, cell towers and other assets, which is recognized as earned, using the straight-line method over the life of each lease. Leasing revenue includes properties located in the Company’s consolidated Pier Park North JV and Windmark JV, as well as the Company’s industrial park, VentureCrossings, and other properties. Certain leases provide for tenant occupancy during periods for which no rent is due or where minimum rent payments change during the lease term. Accordingly, a receivable or liability is recorded representing the difference between the straight-line rent and the rent that is contractually due from the tenant.

Forestry Product Revenue

Revenue from the sale of the Company's forestry products is primarily derived from pay-as-cut sales contracts or timber bid sales, whereby risk of loss and title to the trees transfer to the buyer when cut by the buyer. Under a pay-as-cut sales contract, the buyer or some other third party is responsible for all logging and hauling costs, if any.

Timber bid sales are agreements in which the buyer agrees to purchase and harvest specified timber (i.e. mature pulpwood and/or sawlogs) on a tract of land over the term of the contract. Unlike a pay-as-cut sales contract, risk of loss and title to the trees transfer to the buyer when the contract is signed. The buyer pays the full purchase price when the contract is signed and the Company does not have any additional performance obligations.

Recently Issued Accounting Pronouncements

Revenue Recognition

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09 that establishes the principles used to recognize revenue for all entities. In March 2016, the FASB issued ASU 2016-08 that further clarifies the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU 2016-10 that clarifies guidance on identifying performance obligations and to improve the operability and understandability of licensing implementation guidance. In May 2016, the FASB issued ASU 2016-11 that rescinds SEC guidance pursuant to announcements at the March 3, 2016 Emerging Issues Task Force Meeting. In May 2016, the FASB issued ASU 2016-12 that provides narrow-scope improvements and practical expedients to *Revenue from Contracts with Customers*. In December 2016, the FASB issued ASU 2016-20 that includes technical corrections and improvements to ASU 2014-09. The new guidance will be effective for annual and interim periods beginning after December 15, 2017. The Company has elected to implement ASU 2014-09 using the modified retrospective application, with the cumulative effect recorded as an adjustment to opening retained earnings at January 1, 2018. The Company is continuing to evaluate the impact of adopting this guidance and as a result of this evaluation currently does not expect it will have a material impact on its financial condition, results of operations or cash flows. The Company expects an impact to revenue-related disclosures as a result of adopting this guidance.

Financial Instruments

In January 2016, the FASB issued ASU 2016-01 that amends existing guidance to address certain aspects of recognition, measurement, presentation and disclosure of financial instruments. The new guidance will require equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in results of operations. Additionally, certain disclosure requirements and other aspects of accounting for financial instruments will change as a result of the new guidance, which is effective for interim and annual reporting periods beginning after December 15, 2017. The Company plans to adopt this guidance effective January 1, 2018 using a cumulative-effect adjustment to retained earnings as of the date of adoption. The Company has evaluated the impact of the adoption of this guidance, and as a result of this evaluation, determined the change in the fair value of its equity investments after January 1, 2018, will be recognized in the consolidated statements of income rather than the consolidated statements of comprehensive income, but is not expected to have a material impact on its financial condition, results of operations or cash flows.

Leases

In February 2016, the FASB issued ASU 2016-02 that amends the existing accounting standards for lease accounting, including requiring lessees to recognize both finance and operating leases with terms of more than 12 months on the balance sheet. The accounting applied by a lessor is largely unchanged from existing guidance. The amendments also require certain quantitative and qualitative disclosures about leasing arrangements. The new guidance will be effective for annual and interim periods beginning after December 15, 2018 and requires a modified retrospective adoption. The Company is currently evaluating the impact that the adoption of this guidance will have on its financial condition, results of operations and cash flows.

Financial Instruments - Credit Losses

In June 2016, the FASB issued ASU 2016-13 that requires a financial asset measured at amortized cost to be presented at the net amount expected to be collected and requires that credit losses from available-for-sale debt securities be presented as an allowance for credit loss. This new guidance will be effective for annual and interim periods beginning after December 15, 2019, with early adoption permitted for annual and interim periods beginning after December 15, 2018. The Company is currently evaluating the impact that the adoption of this guidance will have on its financial condition, results of operations and cash flows.

Statement of Cash Flows

In August 2016, the FASB issued ASU 2016-15 that amends the classification of certain cash receipts and cash payments, to reduce the diversity in how these cash receipts and cash payments are presented and classified in the statement of cash flows. The new standard is effective for annual periods beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted, including adoption in an interim period. As this guidance only affects the classification within the statement of cash flows, it is not currently expected to have an impact on the Company's cash flows.

Statement of Cash Flows - Restricted Cash

In November 2016, the FASB issued ASU 2016-18 that requires that the statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The amendment is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years and should be applied using a retrospective transition method to each period presented. Early adoption is permitted, including adoption in an interim period. ASU 2016-18 will be effective for the Company on January 1, 2018 and is not expected to have a significant impact on the Company's cash flows.

Development property consists of land the Company is developing or intends to develop for sale or future operations and includes direct costs associated with the land, development and construction costs and indirect costs. Residential real estate includes primary residential and resort residential communities. Commercial real estate consists of land for commercial and industrial uses, including land holdings near the Northwest Florida Beaches International Airport and Port of Port St. Joe. Resorts and leisure development property consists of the improvement and expansion of existing beach club property. Leasing development property primarily includes the land development and construction of buildings for lease in VentureCrossings and Pier Park Crossings JV. Development property in the leasing operations and resorts and leisure segments will be reclassified as operating property as it is placed into service.

Operating property includes property that the Company uses for operations and activities. Residential real estate operating property consists primarily of residential utility assets. The resorts and leisure operating property includes the WaterColor Inn, certain vacation rental properties, golf courses, a beach club and marinas. Leasing operating property includes property developed or purchased by the Company and used for retail and commercial rental purposes, including the Beckrich Office Park, property in the Pier Park North JV, as well as other properties. Forestry operating property includes the Company's timberlands. Operating property may be sold in the future as part of the Company's principal real estate business.

Mr. Bruce R. Berkowitz is the Chairman of the Company's Board of Directors (the "Board"). He is the Manager of, and controls entities that own and control, Fairholme Holdings, LLC, which wholly owns Fairholme Capital Management, L.L.C. ("FCM", a registered investment advisor registered with the Securities and Exchange Commission) and the Fairholme Trust Company, L.L.C. ("FTC", a non-depository trust company regulated by the Florida Office of Financial Regulation). Mr. Berkowitz is the Chief Investment Officer of FCM, and the Chief Executive Officer and a director of FTC. Since April 2013, FCM has provided investment advisory services to the Company directly, or more recently, as the sub-advisor to FTC. Neither FCM nor FTC receives any compensation for services as the Company's investment advisor. As of September 30, 2017, clients of FCM and FTC beneficially owned approximately 40.58% of the Company's common stock. FCM and its client The Fairholme Fund, a series of the Fairholme Funds, Inc., may be deemed affiliates of the Company.

Both Mr. Cesar Alvarez and Mr. Howard Frank are members of the Company's Board and also serve as directors of Fairholme Funds, Inc. Mr. Alvarez is also a director of FTC.

Pursuant to the terms of an Investment Management Agreement, as amended, with the Company (the “Agreement”), FTC agreed to supervise and direct the investments of investment accounts established by the Company in accordance with the investment guidelines and restrictions approved by the Investment Committee of the Company’s Board. The investment guidelines are set forth in the Agreement and require that, as of the date of any investment: (i) no more than 15% of the investment account may be invested in securities of any one issuer (excluding the U.S. Government), (ii) any investment in any one issuer (excluding the U.S. Government) that exceeds 10% of the investment account, but not 15%, requires the consent of at least two members of the Investment Committee, (iii) 25% of the investment account must be held in cash or cash equivalents, (iv) the investment account is permitted to be invested in common equity securities; however, common stock investments shall be limited to exchange-traded common equities, shall not exceed 5% ownership of a single issuer and, cumulatively, the common stock held in the Company’s investment portfolio shall not exceed \$100.0 million market value, and (v) the aggregate market value of investments in common stock, preferred stock or other equity investments cannot exceed 25% of the market value of the Company’s investment portfolio at the time of purchase.

As of September 30, 2017, the investment account included \$10.0 million of U.S. Treasury securities, \$101.5 million of corporate debt securities and \$33.7 million of preferred stock. Of the \$101.5 million corporate debt securities and \$33.7 million preferred stock \$9.2 million and \$0.2 million, respectively, were issued by Sears Holdings Corporation or affiliates, of which Mr. Berkowitz serves on the board of directors and may be deemed an affiliate of FCM, or the Company. On October 14, 2017, Mr. Berkowitz notified Sears Holding Corporation that effective October 31, 2017, he would step down from their board of directors.

During the three months ended September 30, 2017, realized losses from the sale of available for-sale securities were \$0.1 million. During the nine months ended September 30, 2017, realized gains from the sale of available for-sale securities were \$10.8 million. During the nine months ended September 30, 2017, proceeds from the sale of available-for-sale securities were \$144.3 million.

During both the three and nine months ended September 30, 2016, realized gains from the sale of available for-sale securities were less than \$0.1 million. During the nine months ended September 30, 2016, proceeds from the sale of available-for-sale securities were \$83.3 million and proceeds from the maturity of available-for-sale securities were \$185.0 million.

The following table provides the corporate debt securities, preferred stock and restricted investments unrealized loss position and related fair values:

	As of September 30, 2017				As of December 31, 2016

As of September 30, 2017, the Company had investments with an unrealized loss of \$3.4 million related to corporate debt securities and preferred stock. The Company had an unrealized loss of \$1.9 million as of December 31, 2016 related to corporate debt securities, preferred stock and restricted investments. As of September 30, 2017 and December 31, 2016, the Company did not intend to sell the investments with a material unrealized loss and it is more likely than not that the Company will not be required to sell any of these securities prior to their anticipated recovery, which could be maturity. During the three months ended September 30, 2017, the Company determined that an unrealized loss related to its corporate debt securities was other-than-temporarily impaired and recorded an impairment of \$0.4 million for credit-related loss in investment income, net in the Company’s condensed consolidated statements of income. During the nine months ended September 30, 2017, the Company determined that an unrealized loss related to its corporate debt securities and preferred stock was other-than-temporarily impaired and recorded an impairment of \$0.8 million for credit-related loss in investment income, net in the Company’s condensed consolidated statements of income.

The net carrying value and estimated fair value of investments and restricted investments classified as available-for-sale at September 30, 2017, by contractual maturity are shown in the following table. Actual maturities may differ from contractual maturities since certain borrowers have the right to call or prepay obligations.

The financial instruments measured at fair value on a recurring basis at December 31, 2016 were as follows:

	Level 1	Level 2	Level 3	Total Fair Value
Cash equivalents:				
Money market funds	\$ 86,236	\$ —	\$ —	\$ 86,236

	5,636	—	—	5,636
	\$ 298,508	\$ 98,760	\$ —	\$ 397,268

Money market funds, commercial paper, U.S. Treasury securities, certain preferred stocks and short-term bonds are measured based on quoted market prices in an active market and categorized within level 1 of the fair value hierarchy. Money market funds and commercial paper with a maturity date of ninety days or less from the date of purchase are classified as cash equivalents in the Company's condensed consolidated balance sheets.

The Company's corporate debt securities and certain preferred stocks are not traded on a nationally recognized exchange but rather are traded in the U.S. over-the-counter market where there is less trading activity and these are measured primarily using pricing data from external pricing services that report prices observed for recently executed market transactions. For these reasons, the Company has determined that corporate debt securities and certain preferred stocks are categorized as level 2 financial instruments since their fair values were determined from market inputs in an inactive market.

Restricted investments include certain of the surplus assets that were transferred from the Company's Pension Plan to a suspense account in the Company's 401(k) Plan in December 2014. The Company has retained the risks and rewards of ownership of these assets; therefore, the assets held in the suspense account are included in the Company's condensed consolidated financial statements until they are allocated to participants. As of September 30, 2017 and December 31, 2016, the assets held in the suspense account were invested in Vanguard Money Market Funds, which invest in short-term, high quality securities or short-term U.S. government securities and seek to provide current income and preserve shareholders' principal investment and a Vanguard Short-Term Bond Fund, which invests in money market instruments and short-term high quality bonds, including asset-backed, government, and investment grade corporate securities with an expected maturity of 0-3 years. The Vanguard Money Market Funds and Vanguard Short-Term Bond Fund are measured based on quoted market prices in an active market and categorized within level 1 of the fair value hierarchy. The Company's Retirement Plan Investment Committee is responsible for investing decisions and allocation decisions of the suspense account. Refer to Note 14. *Employee Benefit Plan*.

Fair Value of Financial Instruments

The Company uses the following methods and assumptions in estimating fair value for financial instruments:

- The fair value of the Company's retained interest investments is based on the present value of the expected future cash flows at the effective yield.
- The fair value of the investments held by special purpose entities - time deposit is based on the present value of future cash flows at the current market rate.
- The fair value of the investments held by special purpose entities - U.S. Treasury securities are measured based on quoted market prices in an active market.
- The fair value of the senior notes held by special purpose entity is based on the present value of future cash flows at the current market rate.

The carrying amount and fair value, measured on a nonrecurring basis, of the Company's financial instruments were as follows:

	September 30, 2017			December 31, 2016		
	Carrying value	Fair value	Level	Carrying value	Fair value	Level
Assets						
Retained interest investments	\$ 11,012	\$ 13,951	3	\$ 10,635	\$ 13,669	3
Investments held by special purpose entities:						
Time deposit	\$ 200,000	\$ 200,000	3	\$ 200,000	\$ 200,000	3
U.S. Treasury securities and cash equivalents	\$ 7,942	\$ 7,821	1	\$ 8,590	\$ 8,398	1
Liabilities						
Senior notes held by special purpose entity	\$ 176,479	\$ 199,730	3	\$ 176,310	\$ 199,691	3

Retained Interest Investments

The Company has a beneficial interest in certain bankruptcy-remote qualified SPEs used in the installment sale monetization of certain sales of timberlands in 2007 and 2008. The SPEs' assets are not available to satisfy the Company's liabilities or obligations and the liabilities of the SPEs are not the Company's liabilities or obligations. Therefore, the SPEs' assets and liabilities are not consolidated in the Company's condensed consolidated financial statements as of September 30, 2017 and December 31, 2016. The Company's continuing involvement with the SPEs is the receipt of the net interest payments and the remaining principal of approximately \$16.8 million to be received at the end of the installment notes' fifteen year maturity period, in 2022 through 2024. The Company has a beneficial or retained interest investment related to these SPEs of \$11.0 million and \$10.6 million as of September 30, 2017 and December 31, 2016, respectively, recorded in other assets on the Company's condensed consolidated balance sheets.

Investments and Senior Notes Held by Special Purpose Entities

In connection with a real estate sale in 2014, the Company received consideration including a \$200.0 million fifteen-year installment note (the "Timber Note") issued by Panama City Timber Finance Company, LLC. The Company contributed the Timber Note and assigned its rights as a beneficiary under a letter of credit to Northwest Florida Timber Finance, LLC. Northwest Florida Timber Finance, LLC monetized the Timber Note by issuing \$180.0 million aggregate principal amount of its 4.8% Senior Secured Notes due in 2029 (the "Senior Notes") at an issue price of 98.5% of face value to third party investors. The investments held by Panama City Timber Finance Company, LLC as of September 30, 2017, consist of a \$200.0 million time deposit that, subsequent to April 2, 2014, pays interest at 4.0% and matures in March 2029, U.S. Treasuries of \$7.5 million and cash of \$0.4 million. The Senior Notes held by Northwest Florida Timber Finance, LLC as of September 30, 2017 consist of \$176.5 million, net of the \$3.5 million discount and debt issuance costs. Panama City Timber Finance Company, LLC and Northwest Florida Timber Finance, LLC are VIEs, which the Company consolidates as the primary beneficiary of each entity.

6. Claim Settlement Receivable

On March 24, 2016, the Company entered into a full and final release agreement with BP p.l.c. and various related entities pursuant to which the Company, on its own behalf and on behalf of certain wholly owned subsidiaries, released any and all claims related to the Deepwater Horizon oil spill which occurred on April 20, 2010. In exchange for this release, the Company will receive \$13.2 million from BP Exploration & Production Inc., a large portion of which will reimburse the Company for expenses incurred. In October 2017 and 2016, the Company received payments of \$2.7 million and \$5.0 million, respectively. The remaining settlement amount will be made in payments of \$2.7 million due in October 2018 and 2019. The Company also received a guaranty of payments from BP North America Corporation Inc. As of March 24, 2016, the Company recorded the claim settlement receivable using an imputed interest rate of 3.0%, based on its best estimate of the prevailing market rates for the source of credit, resulting in an initial present value of \$12.5 million and a discount of \$0.7 million. \$12.5 million of the claim settlement was recognized as other income in the Company's condensed consolidated statements of income for the nine months ended September 30, 2016. The discount is being accreted over the term of the receivable using the effective interest method. Interest income for the three months ended September 30, 2017 and 2016 was \$0.1 million. Interest income for the nine months ended September 30, 2017 and the period from March 24, 2016 to September 30, 2016 was \$0.2 million.

The Company evaluates the carrying value of the notes receivable and the need for an allowance for doubtful notes receivable at each reporting date. As of September 30, 2017 and December 31, 2016, there was no allowance for doubtful notes receivable.

8. Real Estate Joint Ventures

The Company enters into real estate joint ventures, from time to time, for the purpose of developing real estate in which the Company may or may not have a controlling financial interest. GAAP requires consolidation of VIEs in which an enterprise has a controlling financial interest and is the primary beneficiary. A controlling financial interest will have both of the following characteristics: (a) the power to direct the VIE activities that most significantly impact economic performance and (b) the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE. The Company examines specific criteria and uses judgment when determining whether the Company is the primary beneficiary and must consolidate a VIE. The Company continues to assess whether it is the primary beneficiary on an ongoing basis.

Consolidated Real Estate Joint Ventures

In April 2017, the Company entered into a joint venture agreement to develop, manage and lease apartments in Panama City Beach, Florida. The joint venture parties are working together to design, develop and construct a 240 unit multi-family apartment home community to be located on land owned by the Company in the Pier Park area. As of September 30, 2017 the Company owned a 65.0% equity interest in the consolidated joint venture. The Company's partner is responsible for the day-to-day activities of the joint venture. However, the Company has significant involvement in the design of the development and approves all major decisions, including project development, annual budgets and financing. The Company determined Pier Park Crossings JV is a VIE and that the Company is the VIE's primary beneficiary as of September 30, 2017.

In December 2016, the Company entered into a joint venture agreement, pursuant to which the Company transferred to Windmark JV all of its interest in the Windmark Beach project. As of September 30, 2017 and December 31, 2016, the Company owned a 49.0% equity interest in the consolidated joint venture. A wholly owned subsidiary of the Company is the managing member of Windmark JV and runs its day-to-day operations. Windmark JV owns and its members make major decisions related to the management and development of the Windmark Beach project. For financial accounting purposes, the Company is deemed to control Windmark JV, which is consolidated within the financial results of the Company as of September 30, 2017 and December 31, 2016.

During 2012, the Company entered into a joint venture agreement with a partner to develop a retail center at Pier Park North. As of September 30, 2017 and December 31, 2016, the Company owned a 60.0% equity interest in the consolidated joint venture. The Company's partner is responsible for the day-to-day activities of the joint venture. However, the Company has significant involvement in the design of the development and approves all major decisions, including project development, annual budgets and financing. The Company determined the joint venture is a VIE and that the Company is the VIE's primary beneficiary as of September 30, 2017 and December 31, 2016.

In addition, the Company is the primary beneficiary of Artisan Park, L.L.C, another real estate joint venture that is consolidated within the financial results of the Company. The Company is entitled to 74.0% of the profit or loss of this VIE and is responsible for the day-to-day activities of the joint venture.

Unconsolidated Real Estate VIE

As of September 30, 2017 and December 31, 2016, the Company was a partner in ALP Liquidating Trust ("ALP") that is accounted for using the equity method. The joint venture was entered into to develop and sell certain mixed use residential and commercial projects. In 2008, the Company wrote-off its investment in ALP as a result of ALP reserving its assets to satisfy potential claims and obligations in accordance with its publicly reported liquidation basis of accounting. Subsequently, ALP changed its method of accounting to a going concern basis and reinstated its equity and stated it would report certain expenses as they are incurred. The Company has not recorded any additional equity income as a result of ALP's change in accounting.

Financial information for ALP is provided to the Company on a delayed basis. The summarized information as of June 30, 2017 and December 31, 2016 includes total assets of \$10.8 million and \$11.5 million, respectively, total liabilities of \$0.3 million and \$0.6 million, respectively and total equity of \$10.5 million and \$10.9 million, respectively. For each of the three months ended June 30, 2017 and 2016, ALP reported a net loss of \$0.2 million. For the six months ended June 30, 2017 and 2016, ALP reported a net loss of \$0.4 million and \$0.5 million, respectively.

9. Debt

Debt consists of the following at September 30, 2017:

	Principal	Unamortized Discount and Debt Issuance Costs	Net
Refinanced loan in the Pier Park North JV, due November 2025, bearing interest at 4.1%	\$ 47,507	\$ 530	\$ 46,977
Community Development District debt, secured by certain real estate or other collateral, due May 2031 - May 2039, bearing interest at 3.4% to 7.0% at September 30, 2017	7,156	—	7,156
Construction loan, due March 2027, bearing interest at LIBOR plus 1.7% (effective rate of 2.9% at September 30, 2017)	1,624	19	1,605
Total debt	\$ 56,287	\$ 549	\$ 55,738

Debt consists of the following at December 31, 2016:

	Principal	Unamortized Discount and Debt Issuance Costs	Net
Refinanced loan in the Pier Park North JV, due November 2025, bearing interest at 4.1%	\$ 48,132	\$ 613	\$ 47,519
Community Development District debt, secured by certain real estate or other collateral, due May 2031 - May 2039, bearing interest at 3.4% to 7.0% at December 31, 2016	7,521	—	7,521
Total debt	\$ 55,653	\$ 613	\$ 55,040

In October 2015, the Pier Park North JV refinanced a construction loan by entering into a \$48.2 million loan (the “Refinanced Loan”). As of September 30, 2017 and December 31, 2016, \$47.5 million and \$48.1 million, respectively, was outstanding on the Refinanced Loan. As of September 30, 2017 the Refinanced Loan was secured by a first lien on, and security interest in, a majority of the Pier Park North JV’s property and a remaining \$1.3 million short term letter of credit. During October 2017, the letter of credit was released. In connection with the Refinanced Loan, the Company entered into a limited guarantee in favor of the lender, based on its percentage ownership of the joint venture. In addition, the guarantee can become full recourse in the case of any fraud or intentional misrepresentation by the Pier Park North JV; any voluntary transfer or encumbrance of the property in violation of the due-on-sale clause in the security instrument; upon commencement of voluntary bankruptcy or insolvency proceedings and upon breach of covenants in the security instrument.

Community Development District (“CDD”) bonds financed the construction of infrastructure improvements at some of the Company’s projects. The principal and interest payments on the bonds are paid by assessments on the properties benefited by the improvements financed by the bonds. The Company has recorded a liability for CDD debt that is associated with platted property, which is the point at which it becomes fixed or determinable. Additionally, the Company has recorded a liability for the portion of the CDD debt that is associated with unplatted property if it is probable and reasonably estimable that the Company will ultimately be responsible for repaying. The Company’s total outstanding CDD debt was \$21.9 million and \$22.6 million as of September 30, 2017 and December 31, 2016, respectively. The Company pays interest on the total outstanding CDD debt.

In March 2017, a wholly owned subsidiary of the Company entered into a \$1.6 million construction loan to finance the construction of a commercial leasing property located in Panama City Beach, Florida (the “Construction Loan”). The Construction Loan provides for interest only payments during the first twelve months and principal and interest payments thereafter with a final balloon payment at maturity. The Construction Loan is secured by the real property, assignment of rents and the security interest in the rents and personal property. In connection with the Construction Loan, the Company executed a guarantee in favor of the lender to guarantee the payment and performance of the borrower under the Construction Loan until the project meets certain cash flow stabilization requirements.

The aggregate maturities of debt subsequent to September 30, 2017 are:

	September 30, 2017
2017	\$ 241
2018	1,493
2019	1,540
2020	1,543
2021	1,525
Thereafter	49,945
	\$ 56,287

10. Other Liabilities

Other liabilities consist of the following:

	September 30, 2017	December 31, 2016
Accounts payable	\$ 8,838	\$ 4,376
Accrued compensation	1,911	2,655
Deferred revenue	17,043	15,289
Membership deposits and initiation fees	9,328	7,384
Advance deposits	4,083	3,419
Other accrued liabilities	7,961	4,977
Accrued interest expense for Senior Notes held by SPE	712	2,850
Total other liabilities	\$ 49,876	\$ 40,950

Deferred revenue at September 30, 2017 and December 31, 2016 includes \$12.5 million related to a 2006 agreement pursuant to which the Company agreed to sell land to the Florida Department of Transportation. Revenue is recognized when title to a specific parcel is legally transferred.

Membership deposits and initiation fees consist of deposits and fees received for club memberships. Initiation fees are recognized as revenue over the estimated average duration of membership, which is evaluated periodically.

Advance deposits consist of deposits received on hotel rooms and vacation rentals. Advance deposits are recorded as other liabilities in the condensed consolidated balance sheets without regard to whether they are refundable and are recognized as income at the time the service is provided for the related deposit.

Other accrued liabilities include \$3.7 million of accrued property taxes as of September 30, 2017, which are generally paid annually in November. As of December 31, 2016 the Company had no accrued property taxes.

11. Income Taxes

Income tax expense differed from the amount computed by applying the federal statutory rate of 35% to pre-tax income or loss as a result of the following:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Tax at the federal statutory rate	\$ 3,005	\$ 1,280	\$ 11,167	\$ 6,424
State income taxes (net of federal benefit)	301	128	1,117	642
Tax effect of timber at the federal statutory rate of 23.8%	(194)	(121)	(420)	(381)
Decrease in valuation allowance	(250)	(350)	(846)	(713)
Other	(219)	11	(187)	(802)
Total income tax expense	\$ 2,643	\$ 948	\$ 10,831	\$ 5,170

The Company had a federal AMT credit carryforward of \$8.7 million and \$13.5 million as of September 30, 2017 and December 31, 2016, respectively. The AMT credit carryforward is currently available indefinitely to offset future federal income tax liabilities. As of September 30, 2017 and December 31, 2016, the Company had state net operating loss carryforwards of \$395.3 million and \$427.3 million, respectively and no federal net operating loss carryforwards. The state net operating loss is available to offset future taxable income through 2036.

In general, a valuation allowance is recorded if, based on the available evidence, it is more likely than not that some portion or all of the deferred tax asset will not be realized. Realization of the Company's deferred tax assets is dependent upon the Company generating sufficient taxable income in future years in the appropriate tax jurisdictions to obtain a benefit from the reversal of deductible temporary differences and from loss carryforwards.

As of December 31, 2016, based on the timing of reversal of future taxable amounts and the Company's history of losses, management did not believe it met the requirements to realize the benefits of certain of its deferred tax assets; therefore, the Company had maintained a valuation allowance of \$5.1 million. During the nine months ended September 30, 2017, the Company reversed \$0.8 million of the valuation allowance that was recorded as of December 31, 2016. As of September 30, 2017, management believes it has not met the requirements to realize the benefits for a portion of its deferred tax assets for state net operating loss carryforwards; therefore, the Company has maintained a valuation allowance of \$4.3 million for these deferred tax assets.

The Company had approximately \$1.7 million of total unrecognized tax benefits as of both September 30, 2017 and December 31, 2016. Of this total, there are no amounts of unrecognized tax benefits that, if recognized, would affect the effective income tax rate. There were no decreases or increases related to prior year or current year tax positions.

In December 2016, the Company entered into a joint venture agreement, pursuant to which the Company sold to Windmark JV all of its interest in the Windmark Beach project. The sale of the Windmark Beach project created a net taxable loss for the Company in 2016. The loss was carried back to 2014 for a federal income tax refund of \$21.9 million, which was received during the nine months ended September 30, 2017. In addition, the Company received a federal tax refund for 2016 of \$4.4 million during the nine months ended September 30, 2017.

12. Accumulated Other Comprehensive Income (Loss)

Following is a summary of the changes in the balances of accumulated other comprehensive income (loss), which is presented net of tax, as of September 30, 2017:

13. Stockholders' Equity

Stock Repurchase Program

During the nine months ended September 30, 2017 and 2016, the Company repurchased 7,811,937 and 995,650 shares, respectively, of its common stock at an average purchase price of \$17.42 and \$14.88, per share, respectively, for an aggregate purchase price of \$136.0 million and \$14.8 million, respectively, pursuant to its stock repurchase program (the "Stock Repurchase Program").

On July 7, 2017, the Company's Board authorized additional repurchases of up to \$28.0 million of the Company's shares of its common stock under the Stock Repurchase Program. On July 11, 2017, the Company repurchased 1,500,000 shares for an aggregate purchase price of \$27.0 million. On September 18, 2017, the Company's Board authorized additional repurchase authority of up to \$66.0 million of the Company's shares of its common stock under the Stock Repurchase Program. On September 20, 2017, the Company repurchased 3,742,111 shares for an aggregate purchase price of \$65.8 million. After giving effect to these and other recent repurchase activities, as of September 30, 2017, the Company has \$147.7 million remaining under the Stock Repurchase Program.

The Company may repurchase its common stock in open market purchases from time to time, in privately negotiated transactions or otherwise, pursuant to Rule 10b-18 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The timing and amount of any additional shares to be repurchased will depend upon a variety of factors, including market and business conditions and other factors. Repurchases may be commenced or suspended at any time or from time to time without prior notice. The Stock Repurchase Program will continue until otherwise modified or terminated by the Company's Board at any time in its sole discretion.

Issuance of Common Stock for Director's Fees

On May 25, 2017, the Company's Board approved granting to each non-employee director an equity grant with an aggregate fair market value of \$50,000 or, at the director's election, its cash equivalent. On July 3, 2017, 5,334 shares of restricted stock were granted to two of the Company's directors pursuant to the Board's May 25th approval and the Company's 2015 Performance and Equity Incentive Plan. This restricted stock will vest on the date of the Company's 2018 Annual Meeting of Shareholders (the "Annual Meeting") and is subject to forfeiture upon termination of service on the Board prior to the Annual Meeting. Four non-employee directors elected to receive cash in lieu of the stock.

On May 17, 2016, the Board approved the issuance of 8,919 restricted stock awards to three members of the Board as part of their 2016 compensation package and pursuant to the 2015 Performance and Equity Incentive Plan. These restricted stock awards vested 25% on the date of issue and 25% on August 17, 2016, November 17, 2016 and February 17, 2017.

For each of the three and nine months ended September 30, 2017 and 2016, the Company recorded expense of less than \$0.1 million, related to restricted stock awards to the Company's directors.

14. Employee Benefit Plan

The Company maintains a 401(k) retirement plan covering substantially all officers and employees of the Company, which permits participants to defer up to the maximum allowable amount determined by the IRS of their eligible compensation.

As part of the Pension Plan termination in 2014, the Company directed the Pension Plan to transfer \$7.9 million of the Pension Plan's surplus assets into a suspense account in the Company's 401(k) Plan. The Company has retained the risks and rewards of ownership of these assets; therefore, the assets held in the suspense account are included in the Company's condensed consolidated financial statements until they are allocated to participants. As of September 30, 2017 and December 31, 2016, the fair value of these assets was recorded in restricted investments on the Company's condensed consolidated balance sheets and were \$4.5 million and \$5.6 million, respectively.

The Company expenses the fair value of the assets at the time the assets are allocated to participants, which is expected to be allocated up to the next four years. During the nine months ended September 30, 2017 and 2016, the Company recorded an expense of \$1.2 million and \$1.4 million, respectively, for the fair value of the assets, less expenses, that were allocated to participants during that period. Any gain or loss on these assets is reflected in the Company's condensed consolidated statements of income and was less than a \$0.1 million gain for both the three and nine months ended September 30, 2017 and 2016. Refer to Note 5. *Financial Instruments and Fair Value Measurements*.

15. Other Income (Expense)

Investment Income, Net

Interest and dividend income includes interest income accrued or received on the Company's corporate debt securities and dividend income received from the Company's preferred stock and other investments. Accretion income includes the amortization of the premium or accretion of discount related to the Company's available-for-sale securities, which is amortized based on an effective interest rate method over the term of the available-for-sale securities. Realized (loss) gain on the sale of investments include the loss or gain recognized on the sale of an available-for-sale security prior to maturity. During the three months ended September 30, 2017, the Company determined that a portion of its investments in corporate debt securities were other-than-temporarily impaired and recorded a \$0.4 million impairment related to credit-related loss in investment income, net on the Company's condensed consolidated statements of income. During the nine months ended September 30, 2017, the Company determined that a portion of its investments in corporate debt securities and preferred stock were other-than-temporarily impaired and recorded a \$0.8 million impairment related to credit-related loss in investment income, net on the Company's condensed consolidated statements of income. See Note 4. *Investments*.

Interest income from investments in SPEs primarily includes interest accrued or received on the investments held by Panama City Timber Finance Company, LLC, which is used to pay the interest expense for Senior Notes held by Northwest Florida Timber Finance, LLC.

Interest Expense

Interest expense includes interest expense related to the Company's CDD debt, Refinanced Loan in the Pier Park North JV and Construction Loan. Borrowing costs, including the discount and issuance costs for the Senior Notes issued by Northwest Florida Timber Finance, LLC, are amortized based on the effective interest method at an effective rate of 4.9%.

Claim Settlement

Claim settlement during the nine months ended September 30, 2016 includes \$12.5 million for a settlement related to the Deepwater Horizon oil spill. See Note 6. *Claim Settlement Receivable* for further discussion.

Other Income, Net

Other income, net primarily includes income from the Company's retained interest investments, hunting lease income, insurance settlement proceeds and other income and expense items. During the nine months ended September 30, 2017, the Company negotiated an insurance settlement that resulted in proceeds of \$3.5 million, for reimbursement of certain attorney fees and related costs incurred by the Company in defending shareholder litigation and the SEC investigation which was resolved in October 2015. This amount was included in other income, net in the condensed consolidated statements of income.

The Company records the accretion of investment income from its retained interest investment over the life of the retained interest using the effective yield method with rates ranging from 3.7% to 11.7%. Hunting lease income is recognized as income over the term of each lease.

16. Segment Information

The Company conducts primarily all of its business in the following five reportable operating segments: (1) residential real estate, (2) commercial real estate, (3) resorts and leisure, (4) leasing and (5) forestry.

The residential real estate segment generates revenue from the development and sale of homes and homesites and the sale of parcels of entitled, undeveloped land. The commercial real estate segment sells undeveloped or developed land and commercial operating property. The resort and leisure segment generates revenue and incurs costs from the WaterColor Inn and Resort, the vacation rental program, management of The Pearl Hotel, membership sales, membership reservations, restaurants, four golf courses, a beach club, marina operations and other related resort activities. The leasing segment generates revenue and costs from leasing retail, office and commercial property, cell towers and other assets. Leasing operations include properties located in the Company's Beckrich Office Park, consolidated Pier Park North JV and Windmark JV, as well as the Company's industrial park, VentureCrossings and other properties. The forestry segment produces and sells pulpwood, sawtimber and other forest products and may sell the Company's timber or rural land holdings.

The Company's reportable segments are strategic business units that offer different products and services. They are each managed separately and decisions about allocations of resources are determined by management based on these strategic business units.

The Company uses income before income taxes and non-controlling interest for purposes of making decisions about allocating resources to each segment and assessing each segment's performance, which the Company believes represents current performance measures.

The accounting policies of the segments are set forth in Note 2 to the Company's consolidated financial statements contained in Item 15 of the Company's Annual Report on Form 10-K for the year ended December 31, 2016. Total revenue represents sales to unaffiliated customers, as reported in the Company's condensed consolidated statements of income. All significant intercompany accounts and transactions have been eliminated in consolidation. The caption entitled "Other" consists of mitigation credit and title fee revenue and non-allocated corporate general and administrative expenses, net of investment income.

17. Commitments and Contingencies

The Company establishes an accrued liability when it believes it is both probable that a material loss has been incurred and the amount of the loss can be reasonably estimated. The Company will evaluate the range of reasonably estimated losses and record an accrued liability based on what it believes to be the minimum amount in the range, unless it believes an amount within the range is a better estimate than any other amount. In such cases, there may be an exposure to loss in excess of the amounts accrued. The Company evaluates quarterly whether further developments could affect the amount of the accrued liability previously established or would make a loss contingency both probable and reasonably estimable.

The Company also provides disclosure when it believes it is reasonably possible that a material loss will be incurred or when it believes it is reasonably possible that the amount of a loss will exceed the recorded liability. The Company reviews loss contingencies at least quarterly to determine whether the likelihood of loss has changed and to assess whether a reasonable estimate of the losses or range of loss can be made. This estimated range of possible losses is based upon currently available information and is subject to significant judgment and a variety of assumptions, as well as known and unknown uncertainties. The matters underlying the estimated range will change from time to time, and actual results may vary significantly from the current estimate.

The Company is subject to a variety of litigation, claims, other disputes and governmental proceedings that arise from time to time in the ordinary course of its business, including litigation related to its prior homebuilding and development activities. The Company cannot assure that it will be successful in defending these matters. Based on current knowledge, the Company does not believe that loss contingencies arising from pending litigation, claims, other disputes and governmental proceedings, including those described herein, will have a material adverse effect on the consolidated financial position or liquidity of the Company. However, in light of the inherent uncertainties involved in these matters, an adverse outcome in one or more of these matters could be material to the Company's results of operations or cash flows for any particular reporting period.

The Company is subject to costs arising out of environmental laws and regulations, which include obligations to remove or limit the effects on the environment of the disposal or release of certain wastes or substances at various sites, including sites which have been previously sold. It is the Company's policy to accrue and charge against earnings environmental cleanup costs when it is probable that a liability has been incurred and a range of loss can be reasonably estimated. As assessments and cleanups proceed, these accruals are reviewed and adjusted, if necessary, as additional information becomes available. The Company is in the process of assessing certain properties in regard to the effects, if any, on the environment from the disposal or release of wastes or substances. Management is unable to quantify future rehabilitation costs above present accruals at this time or provide a reasonably estimated range of loss.

Other litigation, claims, disputes and governmental proceedings, including environmental matters, are pending against the Company. Accrued aggregate liabilities related to the matters described above and other litigation matters were \$1.2 million and \$1.3 million as of September 30, 2017 and December 31, 2016, respectively. Significant judgment is required in both the determination of probability and the determination as to whether the amount of an exposure is reasonably estimable. Due to uncertainties related to these matters, accruals are based only on the information available at the time. As additional information becomes available, management reassesses potential liabilities related to pending claims and litigation and may revise its previous estimates, which could materially affect the Company's results of operations in a given period.

The Company has retained certain self-insurance risks with respect to losses for third party liability and property damage, including its timber assets.

At September 30, 2017 and December 31, 2016, the Company was required to provide surety bonds that guarantee completion of certain infrastructure in certain development projects and mitigation banks of \$8.6 million and \$6.2 million, respectively, and standby letters of credit of less than \$0.1 million and \$0.4 million, respectively, which may potentially result in liability to the Company if certain obligations of the Company are not met.

As of September 30, 2017, the Company had a total of \$14.1 million in contractual obligations, of which \$12.0 million are for the remainder of 2017, \$2.0 million are for 2018 and \$0.1 million are for 2019.

As of September 30, 2017, security on the Refinanced Loan includes a remaining short term \$1.3 million letter of credit, which was released during October 2017. See Note 9. *Debt* for a further discussion on the Refinanced Loan.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and related notes in Item 1 and with the audited consolidated financial statements and the related notes included in our annual report on Form 10-K. The statements in this discussion regarding industry outlook, our expectations regarding our future performance, liquidity and capital resources and other non-historical statements in this discussion are forward-looking statements. These forward-looking statements are subject to risks and uncertainties, including the risks and uncertainties described in "Forward-Looking Statements" below and "Risk Factors" on page 7 of our annual report on Form 10-K. Our actual results may differ materially from those contained in or implied by any forward-looking statements.

Business Overview

St. Joe is a real estate development, asset management and operating company with real estate assets currently concentrated primarily between Tallahassee and Destin, Florida. As a real estate development company, St. Joe seeks to enhance the value of our real estate assets by undertaking targeted types of residential and commercial real estate development opportunities. As an asset management company, St. Joe actively manages leasing operations and forestry operations to capture the value of our real estate assets. As an operating company, St. Joe operates some of the finest resorts and leisure operations that Northwest Florida has to offer, including the award-winning WaterColor Inn.

We actively seek higher and better uses for our diverse real estate assets through a wide range of strategic activities from land planning and development, to targeted infrastructure improvements and promoting economic development in the Northwest Florida region. We have significant residential and commercial land-use entitlements in hand or in process related to our land. We may explore the sale of all or portions of these assets opportunistically or when we believe that we can better deploy those resources.

We believe that our present real estate holdings and liquidity position provide us with numerous opportunities to increase recurring revenue and create long-term value for our shareholders by allowing us to focus on our core business activity of real estate development, asset management and resort operations.

Our real estate investment strategy focuses on projects that meet our investment return criteria. The time frame for these expenditures and investments tends to vary based on the type of project. However, our practice is to only incur such expenditures when our analysis indicates that a project will generate a return equal to or greater than the threshold return over its life.

We seek opportunities to invest our funds in ways that could increase our returns. These investments may include longer term commercial or residential real estate or real estate related investments (in which we may play an active or passive role), investments in real estate investment trusts, and other investments in liquid or illiquid securities where we believe we can increase our returns.

Segments

We conduct primarily all of our business in the following five reportable operating segments: (1) residential real estate, (2) commercial real estate, (3) resorts and leisure, (4) leasing operations and (5) forestry.

The following table sets forth the relative contribution of these operating segments to our consolidated operating revenue during the three and nine months ended September 30, 2017 and 2016:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Segment Operating Revenue				
Residential real estate	28.0%	11.5%	19.9%	20.7%
Commercial real estate	1.3%	2.3%	3.4%	0.8%
Resorts and leisure	54.1%	70.0%	59.1%	61.8%
Leasing operations	8.5%	9.8%	10.2%	9.5%
Forestry	7.6%	5.6%	6.8%	6.8%
Other	0.5%	0.8%	0.6%	0.4%
Consolidated operating revenue	100.0%	100.0%	100.0%	100.0%

For more information regarding our operating segments, see Note 16. *Segment Information* of our condensed consolidated financial statements included in this quarterly report.

Residential Real Estate

Our residential real estate segment typically plans and develops primary residential and resort residential communities of various sizes, primarily on our existing land. From time to time, our residential real estate segment also evaluates opportunities to maximize value by selling some of our resorts, leisure or operating properties. The following is a description of some of our major residential development communities in Northwest Florida that we are currently in the process of planning or developing. As is true with all of our projects, what residential real estate will actually be developed, including the actual amount of units that we ultimately approve for development in any residential development community, will depend on our development strategy, the extent to which the anticipated returns of the project meet our investment return criteria, and the availability of capital resources to fund the development.

The Watersound Origins community is a residential community in South Walton County, Florida with direct access to Lake Powell. The project has received government approval for 1,074 single family units with an additional multi-family component. The Watersound Origins community includes a six-hole golf course, which is owned by us and operated by our resorts and leisure segment.

The Breakfast Point community is a residential community in Panama City Beach, Florida. The project has received government approval for 368 single family units.

The SouthWood community is a large scale, mixed use community located in the southeastern section of Tallahassee, Florida. The project has received government approval for 4,770 residential units, including 2,074 single family residences and 2,696 multi-family units. SouthWood also includes a golf clubhouse, 18-hole golf course and a town center with dining, retail shops and offices. The SouthWood Golf Club is operated by our resorts and leisure segment and a portion of the town center is leased and operated by our leasing segment.

We have other residential communities, such as the SummerCamp Beach, RiverCamps, WindMark Beach and WaterColor communities that have homesites available for sale or development. In addition, we have residential communities, such as the WaterSound Beach and WaterSound West Beach communities that are substantially developed, and the remaining developed and available homesites in these communities are available for sale.

Our residential real estate segment generates revenue primarily from the sale of developed homesites; the sale of parcels of entitled, undeveloped land; a lot residual on homebuilder sales that provides us a percentage of the sale price of the completed home if the home price exceeds a negotiated threshold; the sale of impact fee credits; marketing fees and other fees on certain transactions. The results of our residential real estate revenue may vary from period to period depending on the communities where lots are sold, as prices vary significantly by community.

Our customer base for the sale of developed homesites is primarily focused on homebuilders. Homebuilders generally buy more homesites in a single transaction but tend to buy on a more sporadic basis. As a result, we may experience volatility in the consistency and pace of our residential real estate sales.

Our residential real estate segment incurs cost of revenue primarily from costs directly associated with the land, development and construction of real estate sold and indirect costs such as development overhead, capitalized interest, marketing, project administration and selling costs.

The Bay-Walton Sector Plan is a long term master plan that includes entitlements, or legal rights, to develop over 170,000 residential units and over 22 million square feet of retail, commercial, and industrial uses on approximately 110,500 acres of our land holdings. We anticipate a wide range of residential and commercial uses on these land holdings, including some portion of these entitlements serving the active adult retirement market. We believe that there is a growing retirement demographic and that our development experience and the location, size and contiguous nature of our Florida land holdings provide us with strategic opportunities in this demographic.

Commercial Real Estate

In our commercial real estate segment we plan, develop, entitle, manage and sell our land holdings for a variety of uses including a broad range of retail, office, hotel, multi-family and industrial uses. From time to time, our commercial real estate segment also evaluates opportunities to maximize value by selling some of our resorts, leisure or operating properties.

Our commercial real estate segment generates revenue from the sale of developed and undeveloped land for retail, office, hotel, multi-family and industrial uses, from the sale of undeveloped land or land with limited development and easements and the sale of commercial operating properties. Our commercial real estate segment incurs costs of revenue directly associated with the land, development, construction and selling costs.

As is true with all of our projects, what commercial real estate will actually be developed will depend on our development strategy, the extent to which the anticipated returns of the project meet our investment return criteria, and the availability of capital resources to fund the development.

Resorts and Leisure

Our resorts and leisure segment features a diverse portfolio of vacation rentals and a hotel, as well as restaurants, golf courses, a beach club, marinas and other related resort amenities.

WaterColor Inn, Vacation Rentals and Other Management Services - Our WaterColor Inn and vacation rentals generate revenue from (1) the WaterColor Inn and Resort and other management services, (2) our management of The Pearl Hotel, (3) our vacation rental business and (4) our restaurants. The WaterColor Inn incurs expenses from the cost of services and goods provided, maintenance of the inn's facilities, personnel costs and third-party management fees. Revenue generated from our management services of The Pearl Hotel includes a management fee, fifty percent of certain resort fees and a percentage of The Pearl Hotel's gross operating profit. Expenses include primarily internal administrative costs. Our vacation rental business generates revenue from the rental of private homes and other services, which includes the entire rental fee collected from the customer, including the homeowner's portion. A percentage of the fee is remitted to the homeowner and presented in the cost of resorts and leisure revenue. The vacation rental business also incurs expenses from holding costs of assets we own and standard lodging personnel, such as front desk, reservations and marketing. Our restaurants generate revenue from food and beverage sales and incur expenses from the cost of services and goods provided and standard restaurant personnel costs.

Clubs - Our club operations include our golf courses, beach club and facilities that generate revenue from membership sales, membership reservations, daily play at our golf courses, merchandise sales and food and beverage sales and incur expenses from the services provided, maintenance of the golf courses, beach club and facilities, personnel costs and third-party management fees.

St. Joe Club & Resorts is our private membership club that provides members and registered resort guests access to our facilities. The focus is on creating a world class membership experience combined with the aspects of a four star/four diamond resort. We believe that the access to our facilities by registered resort guests allows us to enjoy a competitive advantage in the lodging business.

Marinas - Our marinas generate revenue from boat slip rentals and fuel sales, and incur expenses from cost of services provided, maintenance of the marina facilities, personnel costs and third-party management fees.

Leasing Operations

Our leasing operations generate revenue from leasing retail, office and commercial property, cell towers, and other assets, and incur expenses primarily from maintenance and management of our properties, personnel costs and asset holding costs. Leasing operations include properties located in our Beckrich Office Park, consolidated Pier Park North JV and Windmark JV, as well as our industrial park, VentureCrossings and other properties. The following is a listing of some of our leasing properties:

Pier Park North. Our leasing operations include our Pier Park North JV retail center, which includes approximately 330,000 square feet in Panama City Beach, Florida, of which approximately 10,000 square feet remains to be developed.

VentureCrossings. We built and own a 105,000 square foot building with manufacturing and office space in VentureCrossings and lease the facility under a long-term lease that commenced in 2012. We are currently constructing a new manufacturing facility of approximately 138,000 square feet, for which we have a long term lease with GKN Aerospace.

Beckrich Office Park. Leasing properties include two office buildings that were acquired in April 2017. The buildings are located in Panama City Beach, Florida, with over 67,000 net leasable square feet.

Pier Park Crossings. In April 2017, we formed a joint venture to develop, manage and lease apartments in Panama City Beach, Florida. The parties are working together to design, develop and construct a 240 unit multi-family apartment home community to be located on land owned by us in the Pier Park area. We expect construction to begin in the first quarter of 2018.

Forestry

Our forestry segment focuses on the management of our timber holdings in Northwest Florida and generates revenue primarily from open market sales of timber on site without the associated delivery costs. Our forestry segment revenue includes the sale of pulpwood, sawtimber and other forest products and incurs costs of revenue from internal costs of forestry management and property taxes.

Our forestry segment may also generate revenue from the sale of our timber holdings, undeveloped land or land with limited development and easements. Costs incurred as part of a sale of these lands may include the cost of timber, land, minimal development costs and selling costs.

Critical Accounting Estimates

The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. We base these estimates on historical experience, available current market information and on various other assumptions that management believes are reasonable under the circumstances. Additionally, we evaluate the results of these estimates on an on-going basis. Management's estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions, and our accounting estimates are subject to change.

Critical accounting policies that we believe reflect our more significant judgments and estimates used in the preparation of our consolidated financial statements are set forth in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2016. There have been no significant changes in these policies during the first nine months of 2017, however we cannot assure you that these policies will not change in the future.

Recently Adopted and Issued Accounting Pronouncements

See Note 2. *Summary of Significant Accounting Policies* to our condensed consolidated financial statements included in this report for recently issued or adopted accounting standards, including the date of adoption and effect on our condensed consolidated financial statements.

Seasonality

Our business may be affected by seasonal fluctuations. For example, revenue from our resorts and leisure operations are typically higher in the second and third quarters, but can vary depending on the timing of holidays and school breaks, including spring break.

In addition to the seasonality effect described above, our residential real estate business is predominantly sales to homebuilders, who tend to buy multiple lots in sporadic transactions, which impacts the variability in our results of operations. In addition, the results of our residential real estate revenue may vary from period to period depending on the communities where lots are sold, as prices vary significantly by community. Our commercial real estate projects are likewise subject to one-off sales and the development of specific projects depending on demand. These variables have caused, and may continue to cause, our operating results to vary significantly from period to period.

⁽¹⁾ Calculated percentage of total real estate revenue and the respective gross margin percentage.

Real Estate Revenue and Gross Profit. During the three months ended September 30, 2017, residential real estate revenue increased \$6.3 million, or 203.2%, to \$9.4 million as compared to \$3.1 million during the same period in 2016, and gross profit increased \$1.5 million, or 83.3%, to \$3.3 million, (or gross margin of 35.1%), as compared to \$1.8 million, (or gross margin of 58.1%), during the same period in 2016. During the three months ended September 30, 2017, we sold 88 lots compared to 34 lots during the same period in 2016.

During the nine months ended September 30, 2017, residential real estate revenue decreased \$0.5 million, or 3.1%, to \$15.4 million as compared to \$15.9 million during the same period in 2016, and gross profit decreased \$3.0 million, or 29.7%, to \$7.1 million, (or gross margin of 46.1%), as compared to \$10.1 million, (or gross margin of 63.5%), during the same period in 2016. During the nine months ended September 30, 2017, we sold 122 lots compared to 79 lots during the same period in 2016.

The number of lots sold varied each period due to the timing of builder contractual closing obligations and the timing of development of finished lots in our residential communities. The revenue and gross profit for each period was impacted by the volume of sales within each of the communities and the difference in pricing among the communities. Included in the residential real estate revenue for the nine months ended September 30, 2016, is a \$3.4 million unimproved land sale with a gross profit of \$3.3 million due to a low historical basis.

Commercial Real Estate Revenue and Gross Profit. Revenue from commercial real estate can vary drastically from period to period depending on the proximity to developed areas and mix of commercial real estate sold in each period, with varying compositions of retail, office, industrial and other commercial uses. During the three months ended September 30, 2017, we had three commercial real estate sales totaling 11 acres for \$0.4 million. During the nine months ended September 30, 2017, we had five commercial real estate sales totaling 36 acres for \$2.6 million. During the three and nine months ended September 30, 2016, there were three commercial real estate sales totaling approximately 4 acres for \$0.6 million.

Rural Land and Other Revenue and Gross Profit. During the three months ended September 30, 2017, we sold approximately 66 acres of rural and timber land for \$0.7 million and mitigation bank credits for \$0.2 million. During the nine months ended September 30, 2017, we sold approximately 155 acres of rural and timber land for \$0.9 million and mitigation bank credits for \$0.5 million. During the three months ended September 30, 2016, we sold approximately 90 acres of rural and timber land for \$0.2 million and mitigation bank credits for less than \$0.3 million. During the nine months ended September 30, 2016, we sold approximately 696 acres of rural and timber land for \$1.2 million and mitigation bank credits for \$0.3 million. Revenue from rural land can vary drastically from period to period.

Our gross margin can vary significantly from period to period depending on the characteristics of property sold. Sales of rural and timber land typically have a lower basis than residential and commercial real estate sales. In addition, our basis in residential and commercial real estate can vary depending on the amount of development or other costs spent on the property.

Resorts and Leisure Revenue and Gross Profit

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
	<i>In millions</i>			
Resorts and leisure revenue	\$ 18.2	\$ 19.0	\$ 45.6	\$ 47.6
Gross profit	\$ 3.7	\$ 3.6	\$ 7.4	\$ 7.2
Gross margin	20.3%	18.9%	16.2%	15.1%

Resorts and leisure revenue decreased \$0.8 million, or 4.2%, during the three months ended September 30, 2017, as compared to the same period in 2016. The decrease in resorts and leisure revenue is due to a decrease of \$1.4 million from reduced vacation rental inventory based on a conscious decision to focus on higher yielding homes, partially offset by an increase of \$0.5 million in club revenue related to an increase in membership revenue. Resorts and leisure had a gross margin during the three months ended September 30, 2017 of 20.3% compared to 18.9% during the same period in 2016, the increase is primarily due to membership revenue and controlled expenses.

Resorts and leisure revenue decreased \$2.0 million, or 4.2%, during the nine months ended September 30, 2017, as compared to the same period in 2016. The decrease in resorts and leisure revenue is due to a decrease of \$3.1 million from reduced vacation rental inventory based on a conscious decision to focus on higher yielding homes, partially offset by an increase of \$0.9 million in club revenue related to an increase in membership revenue. Resorts and leisure had a gross margin during the nine months ended September 30, 2017 of 16.2% compared to 15.1% during the same period in 2016, the increase is primarily due to membership revenue and controlled expenses.

Leasing Revenue and Gross Profit

	Three Months Ended September 30,		Nine Months Ended September 30,

Leasing revenue	\$ 2.8	\$ 2.7	\$ 7.9	\$ 7.4
Gross profit	\$ 2.0	\$ 2.0	\$ 5.6	\$ 5.2
Gross margin	71.4%	74.1%	70.9%	70.3%

Leasing revenue increased \$0.1 million, or 3.7%, during the three months ended September 30, 2017, as compared to the same period in 2016. Leasing revenue increased \$0.5 million, or 6.8%, during the nine months ended September 30, 2017, as compared to the same period in 2016. The increase in revenue for both the three and nine months ended September 30, 2017 is primarily due to the acquisition of two office buildings during April 2017, as well as new leases at other properties.

Timber Revenue and Gross Profit

Timber revenue	\$ 1.9	\$ 1.3	\$ 4.3	\$ 4.0
Gross profit	\$ 1.7	\$ 1.1	\$ 3.7	\$ 3.4
Gross margin	89.5%	84.6%	86.0%	85.0%

Timber revenue increased \$0.6 million, or 46.2%, during the three months ended September 30, 2017, as compared to the same period in 2016, due to an increase in the amount of tons sold due to increased demand in the current quarter. There were 119,000 tons sold during the three months ended September 30, 2017, as compared to 84,000 tons sold during the same period in 2016. Gross margin increased during the three months ended September 30, 2017 to 89.5%, as compared to 84.6% during the same period in 2016, due to the increase in timber revenue. The cost of timber revenue is primarily fixed, which resulted in an increase to gross margin for the period.

Timber revenue increased \$0.3 million, or 7.5%, during the nine months ended September 30, 2017, as compared to the same period in 2016, due to an increase in the amount of tons sold, offset by price decreases due to fluctuations in market supply. There were 278,000 tons sold during the nine months ended September 30, 2017, as compared to 229,000 tons sold during the same period in 2016.

Other operating and corporate expenses decreased by \$0.2 million, or 3.8%, during the three months ended September 30, 2017, as compared to the same period in 2016. Other operating and corporate expenses decreased by \$2.4 million, or 13.6%, during the nine months ended September 30, 2017, as compared to the same period in 2016. The decrease in other operating and corporate expenses included a decrease in professional fees of \$1.6 million, partially due to a litigation settlement that resulted in the reimbursement of legal expenses of \$0.7 million during the nine months ended September 30, 2017. During the nine months ended September 30, 2016, other miscellaneous included the one-time settlement of a lease obligation of \$0.4 million. The decrease in other operating and corporate expenses during the three and nine months ended September 30, 2017 reflects our continued focus on a low expense structure.

Depreciation, Depletion and Amortization

The increase of \$0.2 million in depreciation, depletion and amortization expenses during the three months ended September 30, 2017, as compared to the same period in 2016, was primarily due to properties acquired or constructed during 2017. The decrease of \$0.3 million in depreciation, depletion and amortization expenses during the nine months ended September 30, 2017, as compared to the same period in 2016, was primarily due to operating assets being fully depreciated, offset by an increase for properties acquired or constructed during 2017.

Investment Income, Net

Investment income, net primarily includes (i) interest and dividends earned, (ii) accretion of the net discount, (iii) realized gain or loss from the sale of our available-for-sale-investments, less other-than-temporary impairment loss, (iv) interest income earned on the time deposit held by an SPE and (v) interest earned on mortgage notes receivable and other receivables as detailed in the table below:

Total investment income, net	\$ 6.4	\$ 4.7	\$ 31.1	\$ 10.4

Investment income, net increased \$1.7 million to \$6.4 million for the three months ended September 30, 2017, as compared to \$4.7 million for the three months ended September 30, 2016. Investment income, net increased \$20.7 million to \$31.1 million for the nine months ended September 30, 2017, as compared to \$10.4 million for the nine months ended September 30, 2016. The increase in interest and dividend income for the three and nine months ended September 30, 2017, as compared to the same period in 2016, is primarily due to changes in our investment portfolio including cash equivalents. During 2017, our investment portfolio included a higher percentage of corporate debt securities and preferred stock as compared to 2016. The returns on the corporate debt securities and preferred stock are generally higher than the returns on the U.S. Treasury Bills and cash equivalents.

Investment income, net for the three months ended September 30, 2017 also includes the sale of certain corporate debt securities, preferred stock, common stock and U.S. Treasury securities at a realized loss of \$0.1 million and an other-than-temporary impairment loss of \$0.4 million related to the credit-related component. Investment income, net for the nine months ended September 30, 2017 includes the sale of certain corporate debt securities, preferred stock, common stock and U.S. Treasury securities at a realized gain of \$10.8 million, partially offset by an other-than-temporary impairment loss of \$0.8 million related to the credit-related component.

Interest Expense

Interest expense primarily includes interest expense on our CDD assessments, the Senior Notes issued by Northwest Florida Timber Finance, LLC, the Refinanced Loan for our consolidated Pier Park North JV and Construction Loan as detailed in the table below:

	Three Months Ended September 30,		Nine Months Ended September 30,

Other interest expense	0.8	0.8	2.5	2.6
Total interest expense	\$ 3.0	\$ 3.1	\$ 9.1	\$ 9.3

Claim Settlement

Claim settlement consists of \$12.5 million for the nine months ended September 30, 2016, due to a settlement related to the Deepwater Horizon oil spill. See Note 6. *Claim Settlement Receivable* for further discussion.

Other Income, Net

Other income, net primarily includes income from our retained interest investments, hunting lease income, insurance settlement proceeds and other income and expense items as detailed in the table below:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016

Other income, net	\$ 0.9	\$ 0.4	\$ 5.5	\$ 1.5

Other income, net increased \$0.5 million during the three months ended September 30, 2017, as compared to the same period in 2016. Other income, net increased \$4.0 million during the nine months ended September 30, 2017, as compared to the same period in 2016. During the nine months ended September 30, 2017, we negotiated an insurance settlement that resulted in proceeds of \$3.5 million for reimbursement of certain attorney fees and related costs incurred by us in defending shareholder litigation and the SEC investigation which was resolved in October 2015. These amounts were included in miscellaneous income, net.

Income Tax Expense

We recorded income tax expense of \$2.6 million during the three months ended September 30, 2017, as compared to \$0.9 million during the same period in 2016. Our effective tax rate was 30.8% for the three months ended September 30, 2017, as compared to 25.9% during the same period in 2016.

We recorded income tax expense of \$10.8 million during the nine months ended September 30, 2017, as compared to \$5.2 million during the same period in 2016. Our effective tax rate was 33.9% for the nine months ended September 30, 2017, as compared to 28.2% during the same period in 2016.

These effective tax rates differ from the federal statutory rate of 35.0% primarily due to the effect of the lower timber rate of 23.8%, impact of state taxes, changes in the valuation allowance and changes in permanent book to tax differences.

Real estate revenue includes sales of homes, homesites and other residential land and certain lot residuals from homebuilder sales that provide us a percentage of the sale price of the completed home if the home price exceeds a negotiated threshold. Other revenue includes brokerage fees, marketing fees and impact fee credits sold. Cost of real estate revenue includes direct costs (e.g., development and construction costs), selling costs and other indirect costs (e.g., development overhead, capitalized interest and project administration costs).

Three Months Ended September 30, 2017 Compared to the Three Months Ended September 30, 2016

The following table sets forth our residential real estate revenue and cost of revenue activity by property type:

	Three Months Ended September 30, 2017					Three Months Ended September 30, 2016

Total	88	\$ 9.0	\$ 5.8	\$ 3.2	35.6%	34	\$ 2.7	\$ 1.0	\$ 1.7	63.0%

Primary homesites. Revenue from primary homesite sales increased \$1.3 million, or 86.7%, during the three months ended September 30, 2017, as compared to the same period in 2016, due to the mix of homesites sold, timing of builder contractual closing obligations and the timing of development of finished lots in our primary residential communities such as the Watersound Origins and SouthWood communities. During the three months ended September 30, 2017 and 2016, the average revenue per primary homesite sold was approximately \$126,000 and \$35,000, respectively, due to the location of the homesites, which includes the sale of 24 undeveloped lots within the SouthWood community during the three months ended September 30, 2016, with no comparable undeveloped lot sales during the same period in 2017. Gross margin was 60.7% during the three months ended September 30, 2017, as compared to 53.3% during the same period in 2016, primarily due to the mix of homesites sold during each respective period and the timing of the receipt of lot residuals that have no related cost at the time of recognition.

Resort homesites. Revenue from resort homesite sales increased \$5.0 million, or 416.7%, during the three months ended September 30, 2017, as compared to the same period in 2016. The increase in revenue from resort homesite sales was primarily due to the mix of homesites sold during each period, which included the sale of 64 lots in the WindMark Beach community to a homebuilder during the three months ended September 30, 2017. During the three months ended September 30, 2017 and 2016, the average revenue per resort homesite sold was approximately \$88,000 and \$585,000, respectively, due to the location of the homesites, particularly the 64 lot sale in the WindMark Beach community during the three months ended September 30, 2017. Gross margin decreased to 24.2% during the three months ended September 30, 2017, as compared to 75.0% during the same period in 2016, primarily due to the mix of homesites sold during each respective period and the timing of the receipt of lot residuals that have no related cost at the time of recognition.

Other operating expenses include salaries and benefits, property taxes, marketing, professional fees, project administration, support personnel, owner association and CDD assessments and other administrative expenses.

During the three months ended September 30, 2017 and 2016, we capitalized less than \$0.1 million of indirect development costs related to our residential development projects.

Other expense, net primarily consists of CDD interest expense, partially offset by other miscellaneous income.

Primary homesites. Revenue from primary homesite sales increased \$1.9 million, or 36.5%, during the nine months ended September 30, 2017, as compared to the same period in 2016, due to the mix of homesites sold, the timing of builder contractual closing obligations and the timing of development of finished lots in our primary residential communities such as the Watersound Origins, Breakfast Point and SouthWood communities. During the nine months ended September 30, 2017 and 2016, the average revenue per primary homesite sold was approximately \$124,000 and \$63,000, respectively, due to the location of the homesites, which includes the sale of 24 undeveloped lots within the SouthWood community during the nine months ended September 30, 2016, with no comparable undeveloped lot sales during the same period in 2017. Gross margin was 59.2% during the nine months ended September 30, 2017, as compared to 50.0% during the same period in 2016, primarily due to the mix of homesites sold during each respective period and the timing of the receipt of lot residuals that have no related cost at the time of recognition.

Resort homesites. Revenue from resort homesite sales increased \$1.1 million, or 19.0%, during the nine months ended September 30, 2017, as compared to the same period in 2016. The increase in revenue from resort homesite sales was primarily due to the mix of homesites sold during each period, which included the sale of 64 lots in the WindMark Beach community to a homebuilder during the nine months ended September 30, 2017. During the nine months ended September 30, 2017 and 2016, the average revenue per resort homesite sold was approximately \$90,000 and \$539,000, respectively, due to the location of the homesites, particularly the 64 lot sale in the WindMark Beach community during the nine months ended September 30, 2017. Gross margin was 29.0% during the nine months ended September 30, 2017, as compared to 62.1% during the same period in 2016, primarily due to the mix of homesites sold during each respective period and the timing of the receipt of lot residuals that have no related cost at the time of recognition.

Land sales. During the nine months ended September 30, 2016, we had a sale of approximately 111 acres of unimproved residential land for \$3.4 million resulting in a gross margin of \$3.3 million.

Other operating expenses include salaries and benefits, property taxes, marketing, professional fees, project administration, support personnel, owner association and CDD assessments and other administrative expenses. In the second quarter of 2017, a litigation settlement resulted in the reimbursement of legal expenses of \$0.7 million, which is reflected in other operating expenses for the nine months ended September 30, 2017. Other operating expenses decreased \$0.9 million during the nine months ended September 30, 2017, as compared to the same period in 2016, primarily due to the legal expense reimbursement noted above along with decreases in personnel costs, professional fees and other administrative expenses.

During the nine months ended September 30, 2017 and 2016, we capitalized less than \$0.1 million of indirect development costs related to our residential development projects.

Other expense, net primarily consists of CDD interest expense, partially offset by other miscellaneous income.

Three and Nine Months Ended September 30, 2017 Compared to the Three and Nine Months Ended September 30, 2016

Commercial real estate revenue can vary depending on the proximity to developed areas and the mix and characteristics of commercial real estate sold in each period, with varying compositions of retail, office, industrial and other commercial uses. During the three months ended September 30, 2017, we had three commercial real estate sales totaling 11 acres for \$0.4 million. During the nine months ended September 30, 2017, we had five commercial real estate sales totaling 36 acres for \$2.6 million. During the three and nine months ended September 30, 2016, there were three commercial real estate sales totaling approximately 4 acres for \$0.6 million. During the three and nine months ended September 30, 2016, impairment charges of \$0.4 million were included in cost of real estate revenue, related to a commerce park. As our focus continues to evolve more towards recurring revenue from leasing operations, we expect to have limited activity during the remainder of 2017.

Other operating expenses include salaries and benefits, property taxes, professional fees and other administrative expenses.

During the three and nine months ended September 30, 2017, we capitalized less than \$0.1 million of indirect development costs related to our commercial real estate development projects. During the three and nine months ended September 30, 2016, no indirect development costs related to our commercial real estate development projects were capitalized.

Revenue from resorts, vacation rentals and other management services decreased \$1.4 million, or 9.6%, during the three months ended September 30, 2017, as compared to the same period in 2016, primarily from reduced vacation rental inventory based on a conscious decision to focus on higher yielding homes, which resulted in an increased gross margin to 21.2% during the three months ended September 30, 2017 compared to 20.5% during the same period in 2016.

Revenue from our clubs increased \$0.5 million, or 13.9%, during the three months ended September 30, 2017, as compared to the same period in 2016, primarily related to an increase in membership revenue. Our gross margin also increased to 17.1% during the three months ended September 30, 2017 compared to 11.1% during the same period in 2016.

Our gross margin was 20.3% during the three months ended September 30, 2017, as compared to 18.9% during the same period in 2016, the increase is primarily due to membership revenue and controlled expenses.

Other operating expenses include salaries and benefits, occupancy fees, professional fees and other administrative expenses.

- (1) Included in net rentable square feet as of September 30, 2017 and December 31, 2016, is 13,808 square feet of unfinished space.
- (2) In addition to net rentable square feet, there is also space that we occupy or serves as common area.
- (3) In addition to net rentable square feet, there is an additional 1,276 square feet that currently serves as common area, but is subject to an agreement whereby the current lessee will expand their lease in 2019 to include the entire building.

Three and Nine Months Ended September 30, 2017 Compared to the Three and Nine Months Ended September 30, 2016

Leasing revenue increased \$0.1 million, or 3.7%, during the three months ended September 30, 2017, as compared to the same period in 2016. Leasing revenue increased \$0.5 million, or 6.8%, during the nine months ended September 30, 2017, as compared to the same period in 2016. The increase in revenue for both the three and nine months ended September 30, 2017 is primarily due to the acquisition of two office buildings in April 2017, as well as new leases at other properties. Cost of leasing revenue was essentially flat for each of the three and nine month periods ended September 30, 2017 and 2016. As of September 30, 2017, we had net rentable square feet of approximately 675,000, of which approximately 574,000 square feet was under lease. As of September 30, 2016, we had net rentable square feet of approximately 624,000, of which approximately 517,000 square feet was under lease.

Other operating expenses include property taxes, insurance, professional fees, marketing, project administration and other administrative expenses. In June of 2016, a settlement of a lease obligation resulted in a payment by the Pier Park North JV entity of \$0.4 million. That \$0.4 million payment is reflected in other operating expenses for the nine months ended September 30, 2016.

Interest expense primarily includes interest expense from the Pier Park North JV Refinanced Loan and the Pier Park outparcel Construction Loan.

During the three and nine months ended September 30, 2017, we capitalized less than \$0.1 million of indirect development costs related to our commercial leasing development projects. During the three and nine months ended September 30, 2016, no indirect development costs related to our commercial leasing development projects were capitalized.

Forestry

The table below sets forth the results of operations of our forestry segment for the three and nine months ended September 30, 2017 and 2016:

Total	119,000	100.0%	84,000	100.0%	278,000	100.0%	229,000	100.0%

Three Months Ended September 30, 2017 Compared to the Three Months Ended September 30, 2016

Timber revenue increased by \$0.6 million, or 46.2%, during the three months ended September 30, 2017, as compared to the same period in 2016, primarily due to an increase in the amount of tons sold due to increased demand in the current quarter and an increase in the average price per ton. There were 119,000 tons sold during the three months ended September 30, 2017, as compared to 84,000 tons sold during the same period in 2016. The average price per ton sold increased to \$15.89 during the three months ended September 30, 2017, as compared to \$15.36 during the same period in 2016. Gross margin increased during the three months ended September 30, 2017 to 89.5%, as compared to 84.6% during the same period in 2016, due to the increase in timber revenue. The cost of timber revenue is primarily fixed, which resulted in an increase to gross margin for the period.

During the three months ended September 30, 2017, we sold approximately 66 acres of rural and timber land for \$0.7 million. During the three months ended September 30, 2016, we sold approximately 90 acres of rural and timber land for \$0.2 million.

Other operating expenses include salaries and benefits, property taxes, professional fees and other administrative expenses. Other income consists primarily of income from hunting leases and fill dirt sales.

Nine Months Ended September 30, 2017 Compared to the Nine Months Ended September 30, 2016

Timber revenue increased by \$0.3 million, or 7.5%, during the nine months ended September 30, 2017, as compared to the same period in 2016, primarily due to an increase in the amount of tons sold, offset by price decreases due to fluctuations in market supply. There were 278,000 tons sold during the nine months ended September 30, 2017, as compared to 229,000 tons sold during the same period in 2016. The average price per ton sold decreased to \$15.51 during the nine months ended September 30, 2017, as compared to \$17.60 during the same period in 2016.

During the nine months ended September 30, 2017, we sold approximately 155 acres of rural and timber land for \$0.9 million, as compared to approximately 696 acres of rural and timber land sold for \$1.2 million during the nine months ended September 30, 2016.

Other operating expenses include salaries and benefits, property taxes, professional fees and other administrative expenses. Other income consists primarily of income from hunting leases and fill dirt sales.

Liquidity and Capital Resources

As of September 30, 2017, we had cash and cash equivalents of \$166.8 million, compared to \$241.1 million as of December 31, 2016. Our cash and cash equivalents at September 30, 2017 includes commercial paper of \$141.6 million and \$5.9 million of money market funds. In addition to cash and cash equivalents, we consider our investments classified as available-for-sale securities, as being generally available to meet our liquidity needs. Securities classified as available-for-sale are not as liquid as cash and cash equivalents, but they are generally convertible into cash within a relatively short period of time. As of September 30, 2017, we had investments in U.S. Treasury securities of \$10.0 million, corporate debt securities of \$101.5 million and preferred stock investments of \$33.7 million. As of December 31, 2016, we had investments in corporate debt securities of \$139.1 million and preferred stock investments of \$36.6 million. See Note 4. *Investments*, for additional information regarding our investments, including affiliations between our investment advisor, entities we are invested in and members of our Board.

We believe that our current cash position and our anticipated cash flows from cash equivalents, short term investments and cash generated from operations will provide us with sufficient liquidity to satisfy our anticipated working capital needs, expected capital expenditures, principal and interest payments on our long term debt, and authorized stock repurchases for the next twelve months.

During the nine months ended September 30, 2017, we incurred a total of \$34.5 million for capital expenditures, which includes \$7.0 million related to the acquisition and development of our residential and commercial real estate projects, \$22.4 million for our leasing segment, \$4.1 million related to our resorts and leisure segment and \$1.0 million related primarily to our forestry segment and corporate expenditures.

Our remaining expected capital expenditures for 2017 are estimated to be \$16.6 million, which includes \$7.8 million primarily for the development and acquisition of land for our residential and commercial real estate projects, \$7.9 million for our leasing segment, \$0.7 million for our resorts and leisure segment and \$0.2 million for our forestry segment and corporate expenditures. A portion of this spending is discretionary and will only be spent if we believe the risk adjusted return warrants the expenditures.

In October 2015, the Pier Park North JV refinanced its construction loan and entered into a \$48.2 million loan. As of September 30, 2017 and December 31, 2016, \$47.5 million and \$48.1 million, respectively, was outstanding on the Refinanced Loan. The Refinanced Loan accrues interest at a rate of 4.1% per annum and matures in November 2025. In connection with the Refinanced Loan, we entered into a limited guarantee in favor of the lender, based on our percentage ownership of the joint venture. In addition, the guarantee can become full recourse in the case of any fraud or intentional misrepresentation by the Pier Park North JV; any voluntary transfer or encumbrance of the property in violation of the due-on-sale clause in the security instrument; upon commencement of voluntary bankruptcy or insolvency proceedings and upon breach of covenants in the security instrument. See Note 8. *Real Estate Joint Ventures*.

CDD bonds financed the construction of infrastructure improvements in some of our projects. The principal and interest payments on the bonds are paid by assessments on the properties benefited by the improvements financed by the bonds. We have recorded a liability for CDD debt that is associated with platted property, which is the point at which it becomes fixed or determinable. Additionally, we have recorded a liability for the balance of the CDD debt that is associated with unplatted property if it is probable and reasonably estimable that we will ultimately be responsible for repaying. We have recorded CDD related debt of \$7.2 million as of September 30, 2017. Our total outstanding CDD debt was \$21.9 million at September 30, 2017, which was comprised of \$18.2 million at SouthWood, \$2.9 million at the existing Pier Park retail center, \$0.7 million at Wild Heron and \$0.1 million at Rivercrest.

Summary of Cash Flows

A summary of our cash flows from operating, investing and financing for the nine months ended September 30, 2017 and 2016 are as follows:

	Nine Months Ended September 30,	
	2017	2016
	<i>In millions</i>	
Net cash provided by operating activities	\$ 49.8	\$ 10.6
Net cash provided by (used in) investing activities	12.6	(42.9)
Net cash used in financing activities	(136.7)	(15.2)
Net decrease in cash and cash equivalents	(74.3)	(47.5)
Cash and cash equivalents at beginning of the period	241.1	212.8
Cash and cash equivalents at end of the period	<u>\$ 166.8</u>	<u>\$ 165.3</u>

Cash Flows from Operating Activities

Cash flows from operating activities include costs related to assets ultimately planned to be sold, including residential real estate development and related amenities, sales of timberlands or undeveloped and developed land, our forestry operations and land developed by the commercial real estate segment. Net cash provided by operations was \$49.8 million during the nine months ended September 30, 2017, as compared to \$10.6 million during the same period in 2016. Net cash provided by operations included \$26.7 million of federal income tax refunds received during the nine months ended September 30, 2017.

Cash Flows from Investing Activities

Cash flows provided by (used in) investing activities primarily includes purchases, sales and maturities of investments, investments in assets held by SPEs and capital expenditures for property and equipment used in our operations. During the nine months ended September 30, 2017, net cash provided by investing activities was \$12.6 million, which includes purchases of investments of \$104.0 million, sales of investments of \$144.3 million and maturities of assets held by SPEs of \$0.8 million. During the nine months ended September 30, 2016, net cash used in investing activities was \$42.9 million, which includes purchases of investments of \$308.2 million, sales of investments of \$83.3 million, maturities of investments of \$185.0 million and maturities of assets held by SPEs of \$0.8 million. Capital expenditures for operating property and property and equipment were \$28.4 million and \$3.8 million, during the nine months ended September 30, 2017 and 2016, respectively, which were primarily for our resorts and leisure and leasing operations segments. Capital expenditures for operating property during the nine months ended September 30, 2017 included the purchase of two office buildings and construction of a manufacturing facility for lease in Venture Crossings.

Cash Flows from Financing Activities

Net cash used in financing activities was \$136.7 million during the nine months ended September 30, 2017, compared to \$15.2 million for the nine months ended September 30, 2016. Net cash used in financing activities during the nine months ended September 30, 2017 included the repurchase of common stock of \$136.0 million, capital distribution to non-controlling interest of \$1.5 million and principal payments on debt of \$1.1 million, partially offset by borrowings on the Construction Loan of \$1.6 million and capital contribution from non-controlling interest of \$0.2 million. Net cash used in financing activities during the nine months ended September 30, 2016 included the repurchase of our common stock \$14.8 million and principal payments on debt of \$0.4 million.

Off-Balance Sheet Arrangements

In October 2015, the Pier Park North JV refinanced its construction loan and entered into a \$48.2 million loan. As of September 30, 2017 the Refinanced Loan was secured by a first lien on, and security interest in, a majority of Pier Park North JV's property and a remaining short term \$1.3 million letter of credit. During October 2017 the letter of credit was released. In connection with the Refinanced Loan, we entered into a limited guarantee and are required to comply with a financial covenant as described in Note 8. *Real Estate Joint Ventures*.

As part of a timberland sale in 2007 and 2008, we have recorded a retained interest with respect to notes contributed to bankruptcy-remote qualified SPEs of \$11.0 million for all installment notes monetized through September 30, 2017. This balance represents the present value of future cash flows to be received over the life of the installment notes, using management's best estimates of underlying assumptions, including credit risk and interest rates as of the date of the monetization, plus the accretion of investment income based on an effective yield, which is recognized over the term of the notes, less actual cash receipts.

At September 30, 2017 and December 31, 2016, we were required to provide surety bonds that guarantee completion of certain infrastructure in certain development projects and mitigation banks of \$8.6 million and \$6.2 million, respectively, and standby letters of credit of less than \$0.1 million and \$0.4 million, respectively, which may potentially result in liability to us if certain obligations are not met.

Contractual Obligations

There were no material changes outside the ordinary course of our business in our contractual obligations during the third quarter of 2017.

Forward-Looking Statements

This quarterly report contains “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements concern expectations, beliefs, projections, plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. Specifically, this quarterly report contains forward-looking statements regarding:

- our expectations concerning our future business strategy, including exploring the sale of our real estate assets opportunistically or when we believe that we can better deploy those resources;
- our expectations regarding available opportunities provided to us by our liquidity position to increase growth and recurring revenue and to create long-term shareholder value;
- our 2017 capital expenditures budget and the timing of benefits of these investments;
- our expectations regarding levels of commercial real estate sales activity during the remainder of 2017;
- our beliefs regarding growth in the retirement demographic and the strategic opportunities provided to us by such growing retirement demographic;
- our expectations regarding the wide range of residential and commercial uses of our Bay-Walton Sector Plan land holdings, including to serve the active adult retirement market;
- our expectation regarding our liquidity or ability to satisfy our working capital needs, expected capital expenditures and principal and interest payments on our long term debt;
- our estimates and assumptions regarding the installment notes and the Timber Note; and
- our expectation regarding the impact of pending litigation, claims, other disputes or governmental proceedings, on our cash flows, financial condition or results of operations.

These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and assumptions. We wish to caution readers that certain important factors may have affected and could in the future affect our actual results and could cause actual results to differ significantly from those expressed in any forward-looking statement. The most important factors that could prevent us from achieving our goals, and cause the assumptions underlying forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements include, but are not limited to, those risk factors and disclosures set forth in our Form 10-K for the year ended December 31, 2016, and subsequent, Form 10-Qs and other current reports, and the following:

- any changes in our strategic objectives and our ability to successfully implement such strategic objectives;
- any potential negative impact of our longer-term property development strategy, including loss and negative cash flows for an extended period of time if we continue with the self-development of our entitlements;
- our ability and the ability of our investment advisor to identify and acquire suitable investments for our investment portfolio that meet our risk and return criteria;
- significant decreases in the market value of our investments in securities or any other investments;
- our ability to capitalize on strategic opportunities presented by a growing retirement demographic;
- our ability to accurately predict market demand for the range of potential residential and commercial uses of our real estate, including our Bay-Walton Sector holdings;
- volatility in the consistency and pace of our residential real estate revenue;
- economic or other conditions that affect the future prospects for the Southeastern region of the United States and the demand for our products, including a slowing of the population growth in Florida, inflation, or unemployment rates or declines in consumer confidence or the demand for, or the prices of, housing;
- any downturns in real estate markets in Florida or across the nation;
- our dependence on the real estate industry and the cyclical nature of our real estate operations;
- the impact of natural or man-made disasters or weather conditions, including hurricanes, fires and other severe weather conditions, on our business;
- our ability to successfully and timely obtain land use entitlements and construction financing, maintain compliance with state law requirements and address issues that arise in connection with the use and development of our land, including the permits required for mixed-use and active adult communities;
- changes in laws, regulations or the regulatory environment affecting the development of real estate;
- our ability to effectively deploy and invest our assets, including our available-for-sale securities;
- our ability to effectively manage our real estate assets, as well as the ability of our joint venture partners to effectively manage the day-to-day activities of the Pier Park North JV and Pier Park Crossings JV;
- our ability to realize the anticipated benefits of our acquisitions, joint ventures, investments in leasable spaces and operations and share repurchases;
- our ability to carry out our Stock Repurchase Program in accordance with applicable securities laws;
- increases in operating costs, including costs related to real estate taxes, owner association fees, construction materials, labor and insurance and our ability to manage our cost structure;
- the sufficiency of our current cash position, anticipated cash flows from cash equivalents and short term investments and cash generated from operations to satisfy our anticipated working capital needs, capital expenditures and principal and interest payments;
- our ability to anticipate the impact of pending environmental litigation matters or governmental proceedings on our financial condition or results of operations;
- the expense, management distraction and possible liability associated with litigation, claims, other disputes or governmental proceedings;
- potential liability under environmental or construction laws, or other laws or regulations;
- our ability to receive payments of settlement amounts due under our claims settlement receivable; and
- our ability to successfully estimate the impact of certain accounting and tax matters that arise from the installment notes and the Timber Note.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risks primarily from interest rate risk fluctuations. We have investments in U.S. Treasury securities, corporate debt securities and certain preferred stocks that have fixed interest rates for which changes in interest rates generally affect the fair value of the investment, but not the earnings or cash flows. A hypothetical 100 basis point increase in interest rates would result in a decrease of approximately \$3.6 million in the market value of our available-for-sale securities as of September 30, 2017. Any realized gain or loss resulting from such interest rate changes would only occur if we sold the investments prior to maturity. In addition, our investments in corporate debt securities are non-investment grade, which could affect their fair value and could materially impact our results of operations if a decline in their value is determined to be other-than-temporary.

Our cash and cash equivalents are invested in commercial paper and money market instruments. Changes in interest rates related to these investments would not significantly impact our results of operations. The amount of interest earned on one of our retained interest investments is based on LIBOR. A 100 basis point change in the interest rate may result in an insignificant change in interest earned on the investment.

The amount of interest expense on our Construction Loan is based on LIBOR. A 100 basis point change in the interest rate may result in an insignificant change in interest expense.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Our Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting. During the quarter ended September 30, 2017, there were no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to a variety of litigation, claims, other disputes and governmental proceedings that arise from time to time in the ordinary course of our business, none of which we believe will have a material adverse effect on our consolidated financial position, results of operations or liquidity.

In addition, we are subject to environmental laws and regulations, which include obligations to remove or limit the effects on the environment of the disposal or release of certain wastes or substances at various sites, including sites which have been previously sold. Refer to Note 17. *Commitments and Contingencies*, for further discussion.

Item 1A. Risk Factors

A description of the risk factors associated with our business is contained in the “Risk Factors” section of our annual report on Form 10-K for the fiscal year ended December 31, 2016. There have been no material changes to our Risk Factors as previously reported.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information on our repurchases of common stock during the three months ended September 30, 2017:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (1)

Total	5,395,848	\$ 17.71	5,395,848	\$ 147.7

- (1) In 2015, we announced that our Board authorized an additional \$200.0 million for stock repurchases under our Stock Repurchase Program. As of December 31, 2016, we had a total of \$190.9 million available for purchase of shares under our Stock Repurchase Program. The Stock Repurchase Program has no expiration date. On July 7, 2017, our Board authorized additional repurchases of up to \$28.0 million of our shares of common stock under the Stock Repurchase Program. On July 11, 2017, we repurchased 1.5 million shares for an aggregate purchase price of \$27.0 million. On September 18, 2017, our Board authorized additional repurchase authority of up to \$66.0 million of our shares of common stock under the Stock Repurchase Program. On September 20, 2017, we repurchased 3.7 million shares for an aggregate purchase price of \$65.8 million. After giving effect to these and other recent repurchase activities, as of September 30, 2017, we had \$147.7 million remaining under the Stock Repurchase Program.

**The St. Joe Company
Board of Directors
Compensation Program for
Non-Employee Directors**

**Compensation
Components**

Board Member Retainer \$75,000 annual cash retainer

Board Member Annual \$50,000 annual equity grant in the form of shares of restricted stock (provided that the Equity Grant company will not issue fractional shares and will grant the number of whole shares of common stock calculated to equal the grant value as closely as possible), which shares vest on the date of the company's next annual meeting and are subject to forfeiture upon termination of service on the Board prior to that annual meeting; each director may elect to receive their annual equity grant in cash in lieu of stock

Chairman Retainer \$25,000 for Chairman of the Board

Committee Chair Retainers \$25,000 for Audit; \$25,000 for Comp, \$25,000 for Governance and Nominating and \$50,000 for Executive

Miscellaneous We reimburse directors for travel expenses related to attending Board and committee meetings and for other company related business. In certain circumstances, we will pay the costs for directors to fly on a private airplane to attend Board and committee meetings or for other company business. We may also invite director spouses to accompany directors to some of our Board meetings, for which we pay or reimburse travel expenses. In addition, we reimburse directors for seminar fees and travel expenses associated with attending one approved educational seminar each year.

**Charitable Matching
Program**

We have chosen to support the charitable and civic activities of our directors. We will match each director's cash contributions to charities in which he serves as an officer or trustee up to an aggregate annual amount of \$5,000 per director. We will also contribute to events at which directors are recognized for their services to charitable or civic causes.

Waiver of Compensation

We understand that Bruce R. Berkowitz, who serves as Chairman of our Board of Directors, has determined to waive his rights to receive any compensation for service on the Board in 2017.

The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
